Schedule of Meetings

Planning meetings for the (Academic Year) school year include:

Quarter 1 Meeting: Oct 18, 2022	Quarter 2: December 7, 2022
Quarter 3 Meeting: Feb 21, 2023	Quarter 4: May 9, 2023

Note: Some business advisory councils may choose to meet more frequently; include the planned dates for those meeting in the schedule.

Business Advisory Council Mission and vision for academic year 2022-2023:

The East Central Ohio Educational Service Center (ECOESC) Business Advisory Council will support Member Districts and Community, Industry, and Higher Education Partners in teaching and igniting students' passion to create better futures for themselves and their communities.

The ECOESC mission of “Helping Schools Help Children” is embodied in the work of the BAC. The purpose and work of the BAC will be continually evaluated to ensure that it is current, given the evolving nature of the ECOESC, its BAC and communities. Current trends in the local industry and economy will be evaluated, and each member will have the opportunity for meaningful input toward the BAC Plan.

Business Advisory Councils operate under [three quality practices](#): **Develop Professional Skills for Future Careers, Build Partnerships and Coordinate Experiences.**

Describe Business Advisory Council plans for academic year 2022-2023 to **Develop Professional Skills for Future Careers.**

- Describe plan including initiatives, project or events. Include specific districts impacted by initiative (s) and list all businesses involved.

	Plan or Initiative	Districts Impacted	Businesses Involved	Timelines	Resources	Potential Barriers	Metrics
	What collaborative action steps are required to facilitate achieving outcomes?	List all districts impacted.	List all businesses involved.	List all plan related timelines for each phase of plan development and deadline.	What resources are needed for implementation (funding, manpower, tools, etc.)	Identify any challenges that may impact this plan. How will the BAC overcome these challenges?	Identify existing data and set measurable outcomes to achieve plan. If data is unavailable, what steps are being taken to acquire this data?
Provide member districts resources and training to increase skill	<ul style="list-style-type: none"> • Leadership Training • Professional Development 	All	BAC Members, Chamber of Commerce Members,	On-going	District Funding, ECOESC Staff, District Staff, Business/Industry Manpower	Lack of Funding, Lack of personnel for implementation both from districts and business/industry	Data is currently unavailable. We will collect available data and establish a baseline this school year.

attainment for students			and other entities			Utilizing combined resources through the ESC helps to overcome staffing and funding issues	
Provide member districts credentialing programs to increase skill attainment for students	<ul style="list-style-type: none"> • Pre-apprenticeships • 12 point Industry Recognized Credentials 	All	BAC Members, Chamber of Commerce Members, and other entities	On-going	District Funding, ECOESC Staff, District Staff, Business/Industry Manpower	<p>Lack of Funding, Lack of personnel for implementation both from districts and business/industry</p> <p>Utilizing combined resources through the ESC helps to overcome staffing and funding issues</p>	Data is currently unavailable. We will collect available data and establish a baseline this school year.

Use the template as a guide to list all initiatives/ projects/ events used to develop professional skills for future careers. (Include Business input in curriculum alignment with skills needed for in-demand professions, educator engagement and development, employers in classroom involvement) Include existing programs and how they will be sustained and scaled.

Describe your Business Advisory Council plans for academic year 2022-2023 to **Build Partnerships**.

- Describe how council will grow partnerships in alignment with in-demand careers in the region with representation from industry, Workforce Boards, Port Authority, Ohio Means Jobs Centers, Industry Sector Partnerships, Higher Education, etc.

	Plan or Initiative	Districts Impacted	Businesses Involved	Timelines	Resources	Potential Barriers	Metrics
	What collaborative action steps are required to facilitate achieving outcomes?	List all districts impacted.	List all businesses involved.	List all plan related timelines for each phase of plan development and deadline.	What resources are needed for implementation (funding, manpower, tools, etc.)	Identify any challenges that may impact this plan. How will the BAC overcome these challenges?	Identify existing data and set measurable outcomes to achieve plan. If data is unavailable, what steps are being taken to acquire this data?
Expand Career Exploration Options to Member Districts	<ul style="list-style-type: none"> • Career Connections • Pre-Apprenticeships • Workforce Collaborative Meetings 	All	BAC Members, Chamber of Commerce Members, and other entities	On-going	District Funding, District and ECOESC Personnel	Understanding and integration of multiple complex pathways can be a challenge. ECOESC Personnel can help districts implement plans that help their students	Baseline data will be collected this year regarding the number of students who take part in career exploration activities.

						while connecting them with business partners for work-based learning experiences.	
Explore funding opportunities that will benefit all stakeholders to increase collaboration	<ul style="list-style-type: none"> Identify funding opportunities that fit current initiatives Utilize BAC and workforce collaborative meetings to discuss partnerships and grant applications. 	All	Potentially all depending on the requirements of the funding source.	By the end of the 2022-2023 school year.	ECOESC Personnel, Business and District Partners	Navigating funding and grant opportunities often requires collaboration between public and private entities. The ECOESC can serve as the organizer and lead applicant for these opportunities.	Data will be collected for all funding provided to assist the ECOESC and districts in these initiatives. The impact of that funding on other objectives will also be measured.

Use the template as a guide to list all initiatives/ projects/ events used to build partnerships. Include information on partnership alignment, effectiveness, initiatives spearheaded by these partnerships. Demonstrate collaborative efforts between district and partners. Describe your Business Advisory Council plans for year 2022-2023 to **Coordinate Experiences**.

- Describe how the council will connect students to experiential learning to show competency of skills learned through hands on demonstration. (Internships, Problem Based learning, Pre-apprenticeships and apprenticeships)

	Plan or Initiative	Districts Impacted	Businesses Involved	Timelines	Resources	Potential Barriers	Metrics
	What collaborative action steps are required to facilitate achieving outcomes?	List all districts impacted.	List all businesses involved.	List all plan related timelines for each phase of plan development and deadline.	What resources are needed for implementation (funding, manpower, tools, etc.)	Identify any challenges that may impact this plan. How will the BAC overcome these challenges?	Identify existing data and set measurable outcomes to achieve plan. If data is unavailable, what steps are being taken to acquire this data?
Raise awareness of experiential learning opportunities	<ul style="list-style-type: none"> Coordinate central calendar of events Compile a list of experiential learning opportunities by county and business industry. 	All	All	By the end of the 2022-2023 school year.	The main resource needed is manpower.	A potential barrier is lack of an updated calendar. This can be overcome by setting a schedule for updating and outreach.	Data will be collected regarding the number of district personnel, and business who actively participate, contribute, and utilize the calendar. Additionally, the metrics used to measure Initiative 1 in Building Partnerships will be analyzed to partially determine the efficacy of this initiative.

<p>Create One-Page Career Pathway Maps with experiential learning opportunities included</p>	<ul style="list-style-type: none"> • Compile pathways fields represented in Ohio's Top Jobs • Create visual pathways for district personnel to use for the creation of graduation plans 	<p>All</p>	<p>All</p>	<p>By the Fall of 2023</p>	<p>Manpower, financial support for graphic art and printing of maps.</p>	<p>There may be different maps needed for each county. This barrier can be overcome by conducting an asset inventory of all pathways in all counties and creating a master list, then pathways by counties or schools if needed.</p>	<p>Data will be collected regarding the usage of the maps by district personnel. Additionally, the number of students taking part in experiential learning will be used to determine the efficacy of this initiative.</p>

Ohio' Business-Education Leader Awards for Excellent Business Advisory Councils Overview

The Ohio Business-Education Leader Awards for Excellent Business Advisory Councils recognize educators, business partners, staff, schools, businesses, educational service centers, joint vocational school districts and communities who come together to create dynamic, career-focused learning environments for students.

Selected business advisory councils demonstrate excellence in ensuring Ohio students are prepared for successful career paths, including college, industry credentials, apprenticeships, military enlistment or a combination of these. Councils pursuing this recognition will be considered for awards of excellence and star ratings.

SELECTION CRITERIA

- Enrollment Eligibility: Business advisory councils seeking the award **must** submit their annual plans and required addendum using the approved template in the Ohio Department of Education's Forms Submission Application by **September 30th**.
- Data Considerations: data metrics can include but are not limited to trend data on previous school year graduation cohorts earning the OhioMeansJobs Readiness Seal, completing work-based learning and earning industry-recognized credentials.
- Conditional Selection: The award is subject to the Ohio Department of Education's review of the accuracy of the business advisory council's submission. The award review committee will consist of Department staff and business and education leaders.
- Awards: In addition to a star rating, state business and education leaders will select the following:
 - Excellence in Developing Professional Skill for Future Careers
 - Excellence in Building Partnerships
 - Excellence in Coordinating Experience

QUALITY PRACTICES

The business advisory council award is based on implementation of the following quality practices. During the recognition year, the business advisory council, in consultation with the local governing board, should:

1. **Develop Professional Skills for Future Careers** – Work together to delineate key professional skills needed for the future job market. Develop a curriculum that instills these skills while advising on changes in the economy and job market.

2. **Build Partnerships** – Develop and increase collaborative relationships among businesses, labor and education personnel. Partnerships should align with in-demand industries in region.
3. **Coordinate Experiences** – Create environments that allow students to demonstrate proficiency in critical professional and specialized skills that will aid in future employment.

In addition to the addendum to the Business Advisory Council Plan, the following information is requested from the submitting organization to qualify:

- A link to the previous year’s joint statement or include a copy of the joint statement
[ECOESC 2021-2022 BAC Plan](#)
- Local data capturing the implementation of the Quality Practices (provide data where * is indicated) Data may be obtained from school counselor, administration, career navigators, etc.
- If the Business Advisory Council represents multiple school districts, specify initiatives and objectives for each district and provide data for each district serve.
- Responses to the following questions:
 1. How has the business advisory council helped students prepare and successfully enter the local workforce?
 - a. Include any curriculum changes influenced by the Business Advisory Council (State specific initiatives, include outcomes and data)
Throughout the last year, conversation between business/industry and school districts revolved around the workforce shortage. Schools were concerned about the new graduation requirements and wanted collaboration with business/industry to help accommodate students that would need the “Career Focused Activities” to meet graduation. Between the two conversations, the obvious solution was to create registered pre-apprenticeship options for students. This allows students to check the following options under “Show Readiness” because a registered pre-apprenticeship completion certificate is a 12 point industry recognized credential through the Ohio Department of Education.

Option 1: Career Focused Activities

1.

Option

Demonstrate Two Career-Focused Activities*:

Foundational
Proficient scores on WebXams

- ✓ A 12-point industry credential
- ✓ A pre-apprenticeship or acceptance into an approved apprenticeship program

Supporting
Work-based learning
Earn the required score on WorkKeys Earn the OhioMeansJobs Readiness Seal

*At least one of the two must be a Foundational skill

Foundational:

- Earn a score of proficient or higher on three or more WebXams in a single career pathway
- Earn a 12-point approved industry-recognized credential or group of credentials totaling 12 points in a single career field;
- Complete a pre-apprenticeship in the student's chosen career field or, for students ages 18 and older, show evidence of acceptance into an apprenticeship program after high school.

Supporting:

- Complete a 250 hour work-based learning experience with evidence of positive evaluations
- Earn the Workforce Readiness Score on WorkKeys (14)
- Earn the OhioMeansJobs Readiness Seal

Because registered pre-apprenticeship completion certificates count at a 12 point industry recognized credential, students also are able to earn the State Industry Recognized Credential Graduation Seal. Once the businesses realized that this a way to work with students and tailor their teaching to exactly what their needs were, many signed up to be involved. The East Central Ohio ESC received approval in the Spring of 2022 to offer four different industry pre-apprenticeships:

- *Education & Training*
- *Health Science*
- *Information Technology*
- *Manufacturing*

ECOESC developed community options for students in both Health Science and Manufacturing. However, approved curriculum options that were already being offered in the local schools were also approved for the pre-apprenticeships as long as work-based learning hours were attached to the content. At the start of this program, fourteen school districts were added the group plan to be able to offer this program to students. In August of 2022, a revision application was submitted to ApprenticeOhio to add two additional industries:

- *Hospitality & Tourism*
- *Agriculture, Food and Natural Resources*

In addition to adding the two new industries, six additional schools were added to the application to bring the total to twenty schools that are involved in the pre-apprenticeship option.

- b. Include how the Council is preparing students with skills needed to address local business needs. (Technical and professional skills)

Local businesses have created curriculum and a schedule to offer pre-apprenticeships to students in both manufacturing and health science. These programs are based solely on the needs in the community of both manufacturing employees and home health care employees.

2. How has the business advisory council and its members supported students in work-based learning (internships, apprenticeship and pre-apprenticeship) opportunities? (Career exploration activities, (job shadowing, mock interviews, mentoring should not be included in data)

- a. How many students have been placed in work-based learning experiences?

Currently, there are 38 students enrolled in the ECOESC pre-apprenticeship options. However, the ECOESC has also been awarded 15 paid internships through Rural Action over the course of the last two years.

- b. What are some examples of high-quality work-based learning supported by your council?

The pre-apprenticeships are the best example of high-quality work-based learning because students will receive hands-on experience that is taught directly from our BAC members if they complete a community option. If they complete a school-based pre-apprenticeship option, the BAC members will help with work-based learning hours and other on-the-job training options for students.

- c. How many of your business partners have accepted students into work-based learning experiences? *

We have many business partners that are willing to take students on with the pre-apprenticeships. However, we have identified over 15 businesses that are involved in either internships or the pre-apprenticeships.

3. How has the business advisory council supported mentorship programs and/or provided networking opportunities for students and professionals?

The Career Navigators in Belmont County are specifically contracted to help mentor students in disadvantaged populations. We have had numerous BAC members work with students on career exploration and soft skills in conjunction with those Career Navigators.

- a. What career activities have been influenced by the BAC? (Include districts involved and data on students involved in each activity)

The Career Connections program that is held in both Tuscarawas County and Guernsey County is heavily influenced by the BAC. This is a career exploration program that involves problem based learning as well for 7th and 8th grade students. Again, the pre-apprenticeships were heavily influenced by the BAC members as well and is the reason why so many industries are on our group application.

- b. What professional development opportunities are available through the BAC for teachers? (Include teacher bootcamps, externships and tours)

4. What major decisions have the Business Advisory Council influenced for the member school districts and how have decisions impacted students?
5. How are the members of your business advisory council representative of the job market of the area you serve? (Specify industries represented on your council reflective of in-demand occupations in the area) *

The members of our Business Advisory Council are representative of the workforce needs in our region as well as the state. Four of our partners are from the healthcare industry, which includes several jobs on the top jobs list such as Home Health Aides, Registered Nurses, and Medical Assistants to name a few. Additionally, six of our partners are in the Manufacturing and/or Construction. We have included a cross-section of industries and fields to ensure current Top Jobs as well as emerging industries such as Hospitality and Tourism are represented, along with workforce development and community partner representatives to ensure everyone has a voice.

6. How is the business advisory council collecting and responding to feedback? Include samples of feedback (Business, Educator and Student).

The Business Advisory Council is an invaluable resource to our school districts and students. The feedback that is given and received is always taken into consideration. Much of the conversation inevitably revolves around how to work with younger generations and how to best prepare the students of today for the careers of tomorrow. Members do take the feedback into consideration when planning for the future.

7. What barriers have your business advisory council encountered in implementing these quality practices?
 - a. How have you overcome these barriers or what will you need to overcome these barriers?
8. What additional information would you like to share about how the business advisory council develops professional skills for future careers? Please provide any details on how the work of the Business advisory council is shared within the community.
9. What additional information would you like to share on how your business advisory council works collaboratively on initiatives to build partnerships and enhance experiences for students?
10. What additional information would you like to share about how career readiness experiences are coordinated? How have these experiences benefitted students and employers? *
